# Hein Zaw Htet

www.iamhein.com       hello@iamhein.com       +959965525143

I'm a software engineer with a passion for well-crafted design with 8 years of experiences.

## EXPERIENCES

### Software Engineer at Zay Chin

(Feb 2019– Current)

- Building Android and iOS application for Zay Chin with React Native.
- Building web version of Zay Chin with ReactJs.
- Building internal tools.
- Building new API from the ground-up with NodeJs.
- Maintaining current API and admin panel.

### Senior Frontend Developer at Get Myanmar

(Sep 2018– Feb 2019)

- Rebuild old admin panel with ReactJs from the ground-up.

### Freelance

(2014-Current)

- Currently developing a rice and seed database and a forum for Myanmar Rice Federation.
- Developed 1000Ks app with React Native for Android. 1000Ks, is an application to win big products just for 1000 Ks.
- Implementing APIs to search flight from multiple airline into one simple API with NodeJS. Build Android and iOS app with that API for flight booking.
- Developed an app with React Native for Android and iOS for Agricultural University Alumni Association. This app is a professional network for agriculturalists in Myanmar.
- Developed Android and iOS app with React Native for MyLann. Location based restaurant discovery and review.
- Redesigned Greenway website. Greenway is a second largest online agricultural platform.
- Designed and developed an official website with ReactJs and PHP for Sarpaylawka, one of the biggest book distributors & sellers in Myanmar
- Worked with multiple clients

### Web Developer at Myanmar Links

(2011-2014)

- Worked with other developers to build internal knowledge-based system for Ooredoo Myanmar's customer champions (Call center staffs)
