I'm a full-stack engineer with a passion for well-crafted design. I am currently a sole developer at the most successful online grocery retailer in Myanmar.

EXPERIENCES

Sole Software Engineer at Zay Chin

(Feb 2019– Current)

Zay Chin is the most successful online grocery store in Myanmar, selling fresh meat, vegetable, and other groceries. At Zay Chin, I am responsible for entire tech stacks.

- Build Android and iOS application for Zay Chin with React Native.
- Build a web version (Lite) with ReactJs.
- Build the PWA app for local super apps.
- Build internal tools to make processing, purchasing, and accounting easier.
- Build new APIs from the ground-up with NodeJs.
- Maintain current API and admin panel with PHP and Laravel.
